DETAILED ACTION

The amendment filed on October 15, 2003 has been received, entered into the record and carefully considered. The following information provided affects the instant application:

1. Claim 4 has been cancelled.
2. Claims 2 and 3 have been amended.
3. Remarks drawn to rejections under 35 U.S.C. 112 second paragraph and 35 U.S.C. 103(a).

Claims 1-3 are pending.

Claim Rejections - 35 USC § 112

The rejections of claims 2 and 3 under 35 U.S.C. 112 second paragraph have been overcome by amendments. However, the rejection of Claim 1 under 112 second paragraph which was indicated as overcome in the previous office action dated July 15, 2003 is being reinstated and the rejection of claim 3 is also made of record. Claims 1 and 3 recite the notation 'Glc' in structural formula (I). Even though applicants indicated in their amendment/remarks filed April 25, 2003 that 'Glc' stands for glucose, this recitation should be in the claims. The specification also does not indicate what 'Glc' is and one of ordinary skill in the art would not be apprised of the scope of the invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1623

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Lichti et al (Helvetica Chimica Acta. 1966, 49, 1552-1580).

Lichti et al teach the hydrolysis of harpagoside to give harpagid. Towards the end of the process after the separation of cinnamic acid (Zimtsaure) the resulting water phase contains harpagid (page 1568, paragraph starting at line 33 through line 49, with subtitle Verseifung von Harpagosid). This constitutes a pharmaceutical preparation and is deemed to meet the limitations of instant claim 2. The recitation “has a potent effect against osteoporosis, arthritis and ruptured disc” is not given patentable weight since the recitation constitutes intended use.

Claim Rejections - 35 USC § 103

The rejection of claim 4 under 35 U.S.C. 103(a) has been rendered moot by cancellation of the claim.

Conclusion

1. Claims 1-3 are rejected.
